

Revolutionary deck system giving you superb performance

With the BR652/752 series everything can be done just moving the steering wheel; as the machine turns, so too does the deck. Together with the “intelligent” squeegee - which perfectly covers the scrubbing track without leaving traces - the Nilfisk concept delivers superb cleaning performance.

This solution is so efficient that side skirts are no longer needed.

The BR652/752 serie with the patented scrubbing deck concept offers super low noise level, ergonomic and a compact design that allows these machines to clean just about anywhere. The Nilfisk Ecoflex™ green-cleaning system controls the consumption of water, detergent and energy so effectively that real savings can be gained without compromising performance!

- Sliding deck concept; maximum comfort and performance, minimum efforts and maintenance
- Squeegee concept; a stable and reliable squeegee for the best pick up performance
- Ecoflex™ system minimises the environmental impact without compromising performance
- Ergonomic steering wheel concept with all working functions fully integrated
- Patented automatic speed control that significantly increases operator safety
- Super compact design makes cleaning of restricted space areas fast and easy
- Low noise mode makes daytime cleaning and cleaning of noise sensitive areas viable
